

We are looking for Building Control Apprentices for our North and South regions.

Building Control Apprentices

Looking for a career in building control and surveying?

premier
guarantee®

You will train to carry out design assessments, inspect work under construction and provide expertise to ensure compliance with the Building Regulations.

Premier Guarantee Surveyors are an established Licenced Building Control Approved Inspector working in partnership with the warranty brand to deliver a combined high standard of service. We have provided quality support and service to the building sector for over 20 years. We are proud to be one of the UK's largest national networks of surveyors with over 200 professional surveyors undertaking the building control and warranty functions.

The role

We are looking for Building Control Apprentices to join our expert team, you will be home based and will be required to travel to construction sites allocated within your area.

We are offering a highly competitive salary commencing £16 – 24k pa depending on previous experience. A salary review will take place at six-monthly intervals. Salary progression beyond the training period will depend on your success and competency, we expect that you will become a Building Control Project Manager on achieving chartership.

About our four year Apprentice Training Programme:

You will attend the University of Westminster and be enrolled on their four years part-time integrated building control degree apprenticeship starting in September 2022 funded by us. The BSc Building Control Surveying Degree Apprenticeship course aims to provide apprentices with the technical, practical and professional skills required for a successful career in building control.

You will receive in-house technical training by our dedicated Technical Training Team consisting of a mixture of classroom, distance and self-learning. They will introduce you to construction principles, regulatory requirements, defect identification, design assessments – all aimed at assisting you in your progression. You will be supported by your team and as you demonstrate your competency you will be given certain tasks to strengthen your theoretical training. You will be exposed to a range of buildings from single houses to multi-storey apartment blocks as well as non-residential building construction.

You will have a dedicated mentor who will support and guide you every step of the way and maintain frequent contact. You will need to demonstrate your progression and competency by completing a professional diary. We are a registered Company Partner and Training Affiliate with the Chartered Association of Building Engineers [CABE] and

you will be supported to become chartered on completion of your degree, your professional diary will assist you in your final CABE assessment.

Our Building Control Team are home based and are provided with all the equipment they need to carry out their role such as mobile reporting tablets, mobile phones, laptops, printer/scanner, office furniture and PPE.

Required experience and skills:

- To be eligible for the degree apprenticeships, you must be age 18 or over and live in England.

The minimum qualification requirements are:

- **A levels** – BCC to BBB
- **International Baccalaureate** - 104 to 120 UCAS Tariff points from the IB
- **BTEC Extended Diploma** – DMM to DDM
- **BTEC Diploma** – D*D to D*D*
- **Access** - 104 to 120 UCAS Tariff points from the Access course

In addition to one of the above, you should have:

- **GCSE English Language** grade 4/C – IB grade 4 Higher level, GCSE Maths grade 4/C – IB grade 4
- Proficient in both written and oral communication
- Fluent in English
- Ability to meet deadlines and manage own workload within agreed parameters
- Ability to use own initiative, flexible approach
- Full UK driving licence
- Permission to work in the UK

Desirable experience and skills:

- Student member of CABE, Tech' CABE, ACABE or equivalent.
- Experience within the construction industry

What some of our former graduates and trainees have to say:

“ *Premier Guarantee supported my training and gave me the opportunity to learn on site. Once qualified with RICS there were opportunities available for me within the company and I was actively encouraged to go for them. I would recommend the graduate scheme to anyone who is willing to work hard and put the time and effort in to succeed.* ”

Laura Taylor, Deputy Regional Manager,
BSc Hons, MRICS

“ *I came from another country with a limited understanding of UK building regulations and the insurance/construction market. The MD Training Academy and mentoring programme provided me with a structured training plan and clear road map for my professional development. Aiming high and having great support along the way made me who I am and where I am today.* ”

Maciej Pulawski, Head of Innovations,
BSc Hons MCABE; C Build E

“ *Coming from a trade background, the Graduate Programme opened doors and gave me options in my career I never felt possible.* ”

Luke Roberts, Senior Risk Management Surveyor,
BSc Hons MCABE, C Build E, AssocRICS

Benefits

As well as being able to offer you a rewarding career, we also provide a range of market-leading employee benefits that extend to outside your working life. Some following successful probationary sign off:
